

Project meeting

Date: 2015-04-28

Facilitator: Fredrik Kindström

Participants: Axel Aringskog, Fredrik Kindström, Pär Löfqvist

1. Objectives (5 min). Resolve any issues preventing the team to continue.

2. Reports (15 min) from previous meeting

3. Discussion items (35 min)

Testing time! We are currently working on writing tests for our classes using JUnit that was shown on the lecture.

We discussed how we should move forward with the network implementation and asked our mentor about it. He showed us a website with tutorials.

A big discussion was the model-view-controller problem. How they should communicate etc.

4. Outcomes and assignments (5 min)

We decided to implement a version of the EventBus thing shown on the lecture to solve our communication problems in the code.

5. Wrap up

Continue work on features until next meeting.
